Mr. THOMPSON of Mississippi. Mr. Speaker I rise to honor a remarkable young woman,

Sabrina Smith, a recent graduate at Madison Shannon Palmer High School in Marks, Mississippi. Sabrina is the proud daughter of Sharon Smith and they reside in Lambert, Mississippi.

Her teachers consider her to be an ideal student because of her honesty, respectful behavior, and hard work. Sabrina is a recipient of numerous awards including the Honor Roll, Principal List, Superintendent List, Perfect Attendance, and special recognition from her teachers for making the highest grades in their classes. Her class work has always exhibited the highest standard of excellence. Every day she works to better herself in school, as well as in everything she undertakes because she understands a good education leads to success.

Sabrina has always been involved in extra-curricular activities. She is a former member of the Madison Shannon Palmer High School Choir, a member of the Student Council, Treasurer for the Sophomore Class of 2010, and Secretary for the Junior Class of 2011. Sabrina is also a member of the National Beta Club where she regularly participates in its book drives. She is a dedicated supporter of community service. She believes that these are some of the skills that are necessary for her to be successful in both her career and her life.

Mr. Speaker, I ask our colleagues to join me in recognizing Ms. Sabrina Smith as Valedictorian of Madison Shannon Palmer High School's Class of 2012.

DOMESTIC ENERGY AND JOBS ACT

SPEECH OF

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2012

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 4480) to provide for the development of a plan to increase oil and gas exploration, development, and production under oil and gas leases of Federal lands under the jurisdiction of the Secretary of Agriculture, the Secretary of Energy, the Secretary of the Interior, and the Secretary of Defense in response to a drawdown of petroleum reserves from the Strategic Petroleum Reserve:

Mr. VAN HOLLEN. Mr. Chair, there are now 34 days left in this legislative session. We could—and should—be focusing our attention on serious legislation that will create jobs and make a real difference in the lives of our constituents. Like a long term transportation bill. Or preventing a doubling of student loan interest rates. Or the President's American Jobs Act.

Instead, under the pretense of lowering gas prices, we are dealing with this ill-considered collection of seven proposals that together would gut the Clean Air Act, trump responsible

public lands management, and needlessly encumber the President's ability to safeguard our energy security.

In a radical departure from over forty years of successful, science-based clean air regulation, this legislation would for the first time require the EPA to consider industry costs when determining what level of ozone is "safe" for Americans to breathe—which is like a doctor changing a patient's diagnosis based on the cost of the treatment. Costs clearly matter, and they are routinely incorporated into the scoping of compliance plans. But they should never be allowed to interfere with the initial, scientific determination as to what is safe for Americans and what is not. This kind of error is further extended to the public lands provisions of this bill, which elevate energy production over hunting, fishing, recreation, conservation and other management uses while imposing arbitrary deadlines for the approval of onshore drilling applications regardless of safety concerns. Finally, the President's ability to tap the Strategic Petroleum Reserve to respond to disruptions in our Nation's energy supply would for the first time be conditioned on a poorly defined new drilling plan that is completely unrelated to the purpose of the SPR.

Mr. Chair, this is not serious legislation. It is hastily thrown together legislative filler which everyone in this chamber understands is dead on arrival in the Senate. Given the magnitude of the challenges we face, we simply do not have this kind of time to waste.
